

February 15, 2011

To whom it may concern:

Simpson Housing worked with Cellular Solutions on the Zoso Flats Project in Arlington, VA. We would like to extend our sincere recommendation for Cellular Solutions on any signal enhancing projects and also express our desire to continue consulting with them on future endeavors. Cellular Solutions worked with Simpson Housing, the Building Manager, as a true ally and team member to bring a difficult project from the conceptual process through construction. The Zoso Flats Project was a 140,000 square foot facility that includes a retail level and 114 units of high end condos. I was involved with Cellular Solutions from the design phase through implementation and our buildings occupant's expectations have been exceeded on this project.

Simpson Housing would like to express our confidence in Cellular Solutions and our desired to work with them on future projects. Please feel free to contact me if you would like to discuss further.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mike Casper", is written over the word "Sincerely,".
